## JKK MUNIRAJAH INSTITUTE OF HEALTH SCIENCES COLLEGE OF PHARMACY

organized by the Five Days Faculty Development Program on the topic of

### **“EMERGING TRENDS AND ADVANCES IN PHARMACEUTICS AND QSAR STUDIES**

#### **EVENT REPORT**

The Faculty Development Program on the topic of **“EMERGING TRENDS AND ADVANCES IN PHARMACEUTICS AND QSAR STUDIES”** has been organized by JKKMIHSCP, T.N. Palayam to all the faculty members from 05.12.2022 to 09.12.2022.

The program began with welcome address followed by introduction of the speakers involved in the program.

The current Faculty Development Program was designed to developing the quality of the participants. Also, to understand the nature of problem to be studied and identifying the related area of knowledge.

The FDP was attended by faculties of JKKMIHSCP, T.N. Palayam.

The Guest Speakers gave suggestions about Drug-Device Combination Products, 3D printing in Pharmaceutical Manufacturing and also Drug Delivery Innovations. They also provide information about the applications of Pharmaceutical Nanotechnology and their future perspectives. They also gave knowledge about the methods and analysis of QSAR studies, Statistical methods of QSAR Modelling and Interpretation of QSAR models.

#### **OUTCOMES:**

“EMERGING TRENDS & ADVANCES IN PHARMACEUTICS AND QSAR STUDIES” were the most prominent computational method applied for decades in the discovery and development of new drugs. The primary outcome of these techniques was to develop mathematical models for the estimation of relevant properties and activities of chemicals of biological interest. The speakers also explained about the general steps involved in these studies like, generation and selection of molecular structure descriptors, construction of models and their validation. At finally, those topics were providing an information about different QSAR approaches with their merits, demerits and brief summary on recent trends in pharmaceuticals and QSAR studies.

Thus, the session was ended with queries and we got the clarification about the topics. We felt very happy and grasped some knowledge.

## JKK MUNIRAJAH INSTITUTE OF HEALTH SCIENCES COLLEGE OF PHARMACY

organized by the Five Days Faculty Development Program on the topic of

### **“ROLE OF HERBS IN VARIOUS SYSTEMS OF MEDICINES”**

#### **EVENT REPORT**

The Faculty Development Program on the topic of **“ROLE OF HERBS IN VARIOUS SYSTEMS OF MEDICINE”** has been organized by JKKMIHSCP, T.N. PALAYAM to all the faculty members from 06.03.2023 to 10.03.2023.

The program began with welcome address followed by introduction of the speaker's involved in the program.

The FDP was attended by faculties of JKKMIHSCP, T.N. Palayam.

The guest speakers gave suggestions about Allopathy, Homeopathy and Siddha system of medicine. They also provide the importance of guidelines like European Union and International Conference of Harmonization to herbal drugs. They also gave some information about the challenges and importance in advanced Pharmacognosy.

#### **OUTCOMES:**

In this Faculty Development Program, an attempt has been made to provide general information about medicinal plants based Traditional, Siddha and Unani Systems of Medicines that are, playing important role in providing health care to large section of population, especially in developing countries. The speakers also explain about the utilization of herbal products in developed countries. They also provide an information about, how to obtain optimum benefit and to understand these functions, it was necessary to have a minimum basic level information on their different aspects. This was being done to enable the participants to appreciate the importance of conceptual basis of these systems. The aspects covered information about historical background, conceptual basis, different disciplines studied in these systems, also research and development aspects, drug manufacturing aspects and impact of globalization on various systems of medicine.

Thus, the session was ended with queries and we got the clarification about the topics. We felt very happy and grasped some knowledge.

## TWO DAYS TRAINING PROGRAM FOR NON-TEACHING STAFFS ON THE TOPIC OF “LIBRARY MANAGEMENT”

### EVENT REPORT

#### **Introduction:**

On December 16, 2022, an insightful training program on “Library Management” was organized for the Non-Teaching Staff of our college. The event aimed to equip the staff with the necessary knowledge and skills to support the efficient functioning of the library.

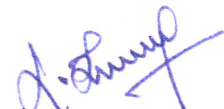

#### **Program Outcomes**

By the end of this training program, participants should be able to:

- Understand the core principles and concepts of library management.
- Effectively organize and maintain library collections.
- Implement security and preservation measures for library materials.
- Handle basic administrative tasks related to library operations.

#### **Conclusion:**

The Training Program on “Library Management” was a resounding success. It provided our non-teaching staff with valuable knowledge and skills to better support the college library. We believe that this initiative will contribute to the overall improvement of library services and benefit our students and faculty.

#### Objective of the Program:

- ❖ Ensure the overall health and vigor of medicinal plants, as healthy plants are more likely to produce potent medicinal compounds.
- ❖ To promote biodiversity by attracting beneficial insects, birds, and other wildlife to the garden.
- ❖ Implement a pest control program to protect plants from pests and diseases, reducing losses in yield and quality.

Maintaining a medicinal garden and providing pest control training for non-teaching staff can yield several

#### Positive Outcomes:

- ❖ Non-teaching staff can learn how to care for medicinal plants, ensuring the garden’s longevity.
- ❖ Participants gain knowledge about medicinal plants, their growth requirements, and their uses in traditional medicine.
- ❖ Non-teaching staff can acquire new skills in horticulture and pest management, potentially benefiting their career development.
- ❖ Effective pest control reduces the need for chemical treatments, saving money and promoting eco-friendly practices.
- ❖ The Program can align with sustainability goals by promoting organic gardening and environmentally friendly pest control methods.
