GENDER EQUITY:

The concept of gender equity refers to “fairness of treatment for both women and men, according to their respective needs. This may include equal treatment or treatment that is different but which is considered equivalent in terms of rights, benefits, obligations and opportunities.

Education deals with formation of habits of human beings. If so, we need education seriously to focus on promoting the equal participation of women and men in making decisions; reducing enrolment gap between women’s and men’s access; giving equality in learning process, educational outcomes and external results and providing equal benefits for both sexes.

Gender equity in education means that males and females have equal opportunities in terms of economic, social, cultural, and political developments. If gender equity is exactly achieved this will contribute to future of girls and boys more than approaches men-centered, and girls will get benefits from public and domestic life as much as boy.

JKKMIHSCP shows gender sensitivity through various initiatives and actions for creating safe, secure and healthy atmosphere in the campus. Sensitization of the students is done through special lectures and functions.

Specific initiatives with respect to key areas are as follows:

1. SAFETY AND SECURITY

Safety of girls is a top priority at every college campus. Nowadays, safe and supportive campus community is both an obligation and a challenge for college administrators and students. Institute should provide a comprehensive range of security amenities especially for girls within the premises, through a dedicated team of security personnel. It is a common phenomenon that most of the outstation students enrolling for different courses come out of their homes and cities for the first time in their life. It is therefore of utmost importance for institutions to provide them a comfortable and safe ambience of 'feel at home' within the campus. Women safety at any college campus is a serious concern now. This problem can only be solved through awareness and prevention programs, dialogue and action. Students should be given regular lessons about sexual assault and its prevention from the school level itself so that they become more aware and alert and do not hesitate in taking preventive and safety actions in case such disdainful circumstances are encountered in future. So, following actions have been taken to ensure safety of the girl students. The institutes pay utmost attention for the safety and security measures. JKKMIHSCP has strict round the clock security of high standards at the entrance of the campus to make it a safe place. Well trained guards are employed by the college on a 24 hours roster. The security guards at the gate, stationed two at a time, check the Identity Cards of everyone entering the campus. The barbed wired high walls of the campus also prevent the trespassers from entering the institute's premises.

CCTV CAMERA

24 hour CCTV surveillance is maintained in the college. It helps to keep a check on antisocial activities. Students and other employees in the college too remain cautious about the surveillance. Discipline is also maintained and it also provides a sense of security to the students and even their guardians. Students wear identity cards at all times to ensure their identity. The institution takes good care of the students in every aspect.
